

Whipcheck Safety Cable, Hose To Tool, Stainless Steel, 4" Hose Size

- Whipchecks are commonly used on hose for air, water blast, drilling, steam, concrete, sandblast or other high pressure applications
- Whipchecks should be installed in the fully extended position (no slack) for proper safety assurance
- Hose to tool is used at the hose and fitting outlet, the spring loaded loop is placed over the hose, and the choker end is wrapped around the tool handle or fitting outlet
- CE certified

Classification

Material Number	6007128
Part Number	-
Status	Active
Detail Description	Whipcheck safety cable, hose to tool, stainless steel, 4" hose size

Details

Cable Range	4 in 101.6 mm
Length	44.0 in 1117.6 mm
Max. Working Pressure	200 psi
Approx. Break Strength	8201 lbs 3720 kg
Working Load	1640 lbs 744 kg (Safety Factor 5*)
Material Type	Stainless Steel

Package

UOM	1 pcs
Packaging	Bag
Weight, gross	2.208 lb 1.002 kg

Certifications

ISO 9001:2015	Designed, manufactured and/or distributed under this quality management system
RoHS	Compliant
CE	Compliant
