

Butt Splice , AWG 2/0#, long barrel

- Suitable for use in circuits rated 35KV or less, proper high voltage spacing and insulation techniques must be used
- Long barrel provides high pull-out force and increased retention for improved mechanical and electrical performance.
- Internal wire stops to prevent over-insertion of conductor.
- Seamless, high conductivity copper tubing for grounding and bonding applications
- "colour code" help choose the right connector, the colour name is also printed in order to avoid problems for those who are colour-blind.
